### Safety on the School Bus

Every year, children are injured because they have not learned a few basic rules about school bus safety. Many people believe that children are most often hurt while they are on the school bus. However, this is not true. Most accidents take place when the child is outside the bus, not inside. Of course, some injuries occur because of crashes, but most of them happen when children are in the blind spots around the bus; they occur when the children are hidden from the driver's view.

To avoid accidents, children should learn to obey a few simple rules. Firstly, they should always keep a safe distance between themselves and the tyres or the rear of the bus. Secondly, in cases where children need to cross the road when they get off the bus, they should walk at least three metres in front of the bus and then wait for the driver to signal to them that it is safe to cross to the other side of the roadway. In addition, when waiting for their bus to arrive, children should stand well away from the road. Finally, they should never try to get on or off the bus until it has come to a complete stop and the driver has opened the doors.

*Fire Safety*

Fires that happen in the home are a very serious problem today. In America, there are over 100,000 home fires every year and many start in the kitchen. There are a lot of things you can do to protect your house from fire.

First of all, you need to follow a few safety rules. You should never leave the kitchen while you are cooking. It's also a bad idea to wear loose clothes when you cook. Always keep the cooking area clean and don't let children come very close to the cooker.

It is also important to know what to do if a fire starts. If a pan catches fire, don't throw water on it! Put a blanket over it and turn off the heat. If the fire doesn't go out, call the fire brigade. If a fire starts inside the oven, keep the door shut and turn it off. If you burn yourself, run cold water over the burn.

Finally, install a smoke alarm and learn how to use it. Also, know the number of your fire brigade by heart. It's better to be safe than sorry.

# A Strange Story

When I was seven years old, my family left the big city and moved to the countryside. I was very excited because our new house was near a beautiful forest.

One day, I decided to go for a walk in the forest but I lost my way. I tried to get back but I just went deeper into the forest. I looked around me and started calling for help, but no one heard me. I was confused and scared because it was almost dark, so I sat under a tree and began to cry.

Suddenly I heard someone coming. It was a boy my age. "Hi," he said. "I'm Philip. What's the matter?" I told Philip that I was lost. "Don't worry," Philip said. "I live near here. I know the forest well." We walked and talked until we were out of the forest. Philip said goodbye and left before I could thank him.

When I got home my mum was talking to a policeman. They were both very upset. "Oh, Tom, thank goodness you're OK!" my mum said when she saw me. "I lost my way in the forest, Mum, but I'm fine now. I'm so sorry," I said. "You were lucky, young man," the policeman said. "Never play alone in that forest, it's too dangerous. Eight years ago, a young boy named Philip MacMann lost his way in that same forest and never came back."

I did not say a word. I wanted to tell them about the boy who helped me but I was afraid they wouldn't believe me. Did a ghost help me? I couldn't sleep that night, or the next. I never saw Philip again and I never went back to the forest!

### LEONARDO DA VINCI - A GREAT ARTIST AND SCIENTIST

by Adam Wilson

The person I admire the most is Leonardo da Vinci. He was born on 15th April 1452 in the town of Vinci, Italy. His full name was Leonardo di ser Piero da Vinci, which means Leonardo, son of Piero from Vinci. He was not only one of the greatest painters of all time, but he was also an architect, sculptor, engineer, inventor, mathematician and musician.

Leonardo da Vinci was a very intelligent and imaginative man. He created many different designs. Some of them were for a bicycle, a helicopter, a parachute and even an aeroplane! He also liked to study everything in nature. You can find some of his notebooks in museums today. In them you can see drawings of plants and animals as well as detailed sketches of the human body!

Leonardo da Vinci paid a lot of attention to detail and his paintings are very realistic. The Mona Lisa, for example, is one of his best known works of art. It is a painting of a woman whose face often makes people wonder if she is smiling or not.

I admire Leonardo da Vinci for his amazing works of art and his great inventions. His artwork will last forever and people around the world admire it even today.

- e.g. Leonardo da Vinci was born in Venice, Italy. F
- 40 His father's name was Paolo. ....

## THE INTERNET: HERE TO STAY

Most people today cannot imagine life without the Internet. I believe it is one of the most important innovations. Thanks to the World Wide Web, our lives are easier and more exciting today.

First of all, the Internet helps us find information easily. For example, we can read the news and find answers to questions 24 hours a day.

In addition, we can use the Internet for entertainment. We can send emails to friends and shop online. We can even listen to the latest music without leaving our homes.

However, some people would argue that it has a negative effect on society. If we don't have to leave our houses to shop, to learn, or to work, what will happen to life as we know it?

In my opinion, the Internet has more advantages than disadvantages. Our lives are better with it and it is here to stay.

e.g. Most people nowadays

- (A) cannot live without the Internet.
- B imagine life without the Internet.
- C live without the Internet.

36 Thanks to the World Wide Web, our lives have become

- A difficult and more stressful.
- B simpler and more interesting.
- C easier and more stressful.

37 The Internet is important mostly because

- A it allows us to find information easily.
- B it provides cheap shopping online.
- C it plays the latest music hits.

38 We can use the Internet for fun, as we can

- A work on assignments.
- B send emails to friends.
- C read the news.

39 The biggest disadvantage of the Internet is

- A that you don't have to go somewhere to work out.
- B that you can't live a normal life.
- C that it can change our habits and routines.

40 The Internet has

- A more disadvantages than advantages
- B more advantages than disadvantages.
- C as many advantages as disadvantages.

## MOBILE PHONES: MAKING LIFE EASIER

Most people today cannot imagine their life without a mobile phone. I believe it is one of the most important innovations ever. Thanks to mobile phones, our lives are much easier today.

First of all, if you have a mobile phone you can make phone calls no matter where you are. For example, you can call a friend to let them know that you lost your way or are going to be late. As a result, you feel safer and less stressed.

In addition, we can use mobile phones to send text messages. We can write messages to friends giving them news or sending them birthday wishes. We can even listen to the radio while travelling on a bus or the metro.

However, some people would argue that it has a negative effect on our life. If we use mobile phones all the time, it is bad for our health.

In my opinion, mobile phones have more advantages than disadvantages if we use them correctly. Our lives are better with them and they are here to stay.

36 Thanks to mobile phones, our lives have become

### C Read the story about two friends and their camping trip and mark the sentences *T* (true) or *F* (false).

#### The Trip of Lifetime

This summer holiday, my friend Irvin and I wanted to do something different. Instead of wasting our time staying at home watching TV and playing computer games as usual, we decided to go camping.

After getting permission from our parents, we began planning our trip. We made a list of all the food and supplies we would need and spent an entire afternoon searching for the best place to buy our camping equipment. In the end, our tent, stove and sleeping bags cost a lot of money, but it was worth it.

When the day finally arrived, my Uncle Bob was kind enough to drive us to the campsite after he got off work. We knew it would take us a couple of hours to get there and Irvin and I grew more and more excited as we got closer to where we were going. It was dark by the time we arrived, but we didn't care. We waved happily at Uncle Bob as he drove away. Then, after a bit of trouble and a lot of laughter, Irvin and I set up the tent and lit the cooking stove. As we sat having our first meal at the camp – tinned spaghetti – we both agreed it was the best food we had ever eaten. A short time later, warm and comfortable in our sleeping bags, we quickly fell asleep and dreamed about what our great adventure would bring.

e.g. The boys were out of school when they came up with their plan. *T*

- D Last summer two of my cousins, David and Linda, invited me to go sailing. They are older than me and very good sailors, so my parents said I could go. We planned to sail two hundred miles along the coast and then come back, so we would be away for a month. I was looking forward to the trip very much. Unfortunately the weather was so bad that for a whole week we were unable to leave harbour. In the end, we decided to go home so I still do not know what it is like to sail the seas!

## Test 1A/1B - Listening

- A:** Hi, Kate! Come in! Tell me about the talk! Was it interesting?
- B:** Yes, I learned a lot. For example, are those your keys there?
- A:** Yes. Why?
- B:** Well, you should never leave keys near doors or windows, especially if they're open.
- A:** Why not?
- B:** Well, someone may come in and take your keys. And they know where you live, too!
- A:** You're right! What else did you learn?
- B:** Well, you should always sleep with your mobile phone beside the bed. And you should keep it switched on.
- A:** I see! That way, you can contact the police immediately.
- B:** Yes. And if you have a garden, you should have dusk-to-dawn outside lights.
- A:** That's a good idea.
- B:** And these should be two and a half metres high, at least.
- A:** And was there anything else?
- B:** Yes. If a stranger knocks on your door, always ask them for ID.

- B:** You shouldn't let them in!

## Test 2A/2B - Listening

- Dave:** This is a fantastic book!
- Anne:** Really? What's it about?
- Dave:** Well, it's about Pete and Gillian. He's a photographer and she's a journalist. They go to Africa to prepare an article about African snakes. They drive to a small village to meet Joe, a local man who knows a lot about snakes. They soon find him, and early one morning, he takes Gillian to a special place and shows her where the snakes live. She is very excited and plans to get Pete and bring him there to take pictures as soon as possible. A few days later, Joe takes them to the same place but a snake bites Pete. Joe is able to cure Pete with special snake medicine. After this, they realise that they still need more information about the snakes. The three of them travel for two hours across the sea, in the rain, to meet a friend of Joe's who lives on a small island. When they finally arrive at the island, Joe's friend greets them and starts talking to Joe in a very serious tone. Pete and Gillian know that something is very wrong.
- Anne:** Go on! What happens next?
- Dave:** I don't know! I haven't reached the end yet!

- Gloria:** But Emily, we did that last night.

James Augustine Aloysius Joyce was born on 2 February, 1882 in Dublin, Ireland. His father, John, was a failed businessman and Joyce's family had very little money when he was growing up. Throughout his childhood and teenage years, he received his education from Catholic priests. In 1898, he became a student at University College in Dublin.

Although his two greatest works, *Ulysses* and *Finnegans Wake* are set in Dublin, James Joyce left his native country in 1902 and went to Paris. The rest of his life was spent mostly abroad. Among other professions, Joyce worked as a teacher and a journalist while he continued with his writing. Even though he lived most of his life outside of Ireland, the fictional world he created in his novels is based on friends, family and events from his time growing up in Dublin.

James Joyce is most famous for his experimental use of language – he managed to put words together in a way that no other writer ever had before. As well as writing novels, this amazingly talented man also wrote short stories and poetry.
